Welcome to Singidunum University!

Singidunum University is the first private university accredited under the Law on Higher Education. There are currently around 12,000 students enrolled at Singidunum University. Lectures are carried out within 16,000 m² of high-quality space equipped with necessary computer and Internet infrastructure, audio-video and other word-class amenities necessary for the efficient learning and teaching process. The University disposes of 16 amphitheatres, 20 lecture halls and 9 computer rooms.

The University curricula are harmonized with the principles of the Bologna Declaration and include the European Credit Transfer System (ECTS). All our study programmes are designed to meet the needs of the modern business environment, with lectures being held in high-quality modern premises by over 300 eminent professors from the country and abroad. The University successfully cooperates with distinguished higher education institutions from all over the world. We have developed joint programs with prestigious Universities from the USA and Europe, as well as strong cooperation with the leading representatives of the Serbian business community.

The University is permanently catching up with modern scientific trends and achievements, including the transmission of knowledge through modern curricula. Our principal mission is training and education of high-quality personnel, experts in their respective fields who could contribute considerably to the overall social and economic development. Singidunum University strives to educate and train personnel and provide them with relevant knowledge and skills to compete efficiently in the international labour market, as well as to enable future graduates to keep pace with modern business trends.

Our English-taught study programmes - both under- and postgraduate, accredited under the Law on Higher Education, enable you to earn an internationally recognised diploma and open the door to further education and participation in labour market in all parts of the world.

Teaching is realized through a blended model, i.e. traditionally (ex-cathedra) and online with the support of the Microsoft Teams platform.

WHY BRIDGE PROGRAM

THE FOUNDATION PROGRAM AT SINGIDUNUM UNIVERSITY

Scan
QR Code

The interview will be organized for each candidate.

The Bridge Program at Singidunum University has been designed to provide students with the appropriate academic preparation for their intended degree program.

This program will primarily help students to improve their English and Serbian language skills and also significantly improve their academic and study skills and prepare them for a challenging university environment.

Students who have taken foundation courses often feel better prepared for their university studies than direct entry students. This is a one-semester non-credit program that consists of four intensive courses that will fully prepare each student for a variety of subjects.

Successful students will be awarded a Certificate of Completion and such students will be enabled to enroll directly to the selected study program at Singidunum University.

This program is an ideal choice for students looking to gain academic confidence and essential skills before entering higher education.

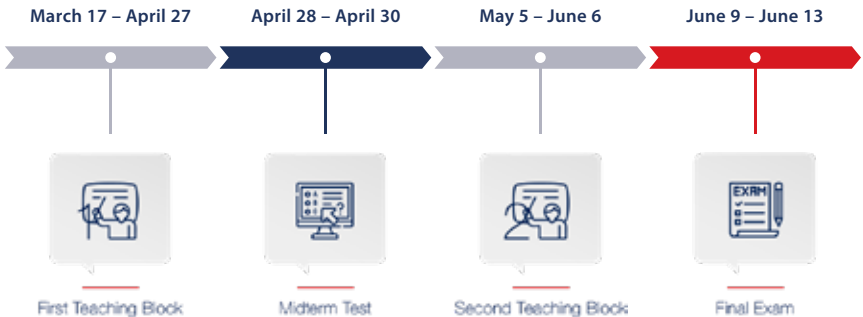

PROGRAM STRUCTURE & SCHEDULE

THE PROGRAM IS ORGANIZED INTO TWO SIX-WEEK BLOCKS,
WITH MIDTERM AND FINAL ASSESSMENTS.

Graduates of the Bridge Program receive a Certificate of Completion

A 12-week preparatory program at Singidunum University designed to strengthen students' academic readiness. Spanning two teaching blocks, the program builds skills in language, technology, and academic competencies, providing a seamless transition into university-level studies.

CURRICULUM OVERVIEW

DEVELOP ESSENTIAL SKILLS IN ENGLISH & SERBIAN LANGUAGE,
INFORMATION TECHNOLOGY, AND PERSONAL SKILLS

108 hours of active learning!

Course title

English for Academic Purposes: 48 hours (4 hours/week)

Focusing on reading, writing, listening, and speaking at a university level

The aim of the course is to enable students to acquire language notions at the university level. The EAP course does include four main language (integrated) skills (reading, writing, listening, and speaking), but all of them are in consent with both academic needs and language and relying on authentic language material/-s; finally, apart from enabling students to effectively use academic language, the EAP course also aims to prepare students for active critical thinking.

Course title

Serbian for Foreigners & Intercultural Competence: 24 hours (2 hours/week)

Introducing Serbian language basics, culture, and traditions

Students are introduced to the elementary grammar and Serbian language structures. At this level, the student learns reading and writing skills and begins to use simple sentences. The course encompasses important elements of Serbian culture, tradition, and history.

Course title

Information Technology: 24 hours (2 hours/week)

Covering fundamental technology concepts and hands-on experience in the IT field

This course is a broad high-level introduction to the field of computer science. Additional topics will include discussion of current streamlined technologies and concepts such as cloud computing, virtualization and computer security. The practical part of this course covers all domains of computer literacy (e.g., how to use file-system, office applications, email, web, etc.).

Course title

Skills Development: 12 hours (in the second block, 2 hours/week)

Focusing on academic study skills, orientation and critical thinking

This course equips students with essential study strategies, critical thinking, and research skills, focusing on effective time management, note-taking, and presentation techniques. By honing these foundational skills, students gain the confidence to approach university assignments and assessments with a structured, analytical mindset, fostering independence and preparedness for academic challenges.

ENROLLMENT PROCESS

Apply in advance for discounted price!

Enrolling in Singidunum University's Bridge Program is a straightforward process designed to support international students in preparing for academic life in Serbia. The program, which covers English for Academic Purposes, Serbian for Foreigners, Intercultural Competence, Information Technology, and Skills Development, ensures that students have the essential skills needed for a smooth transition to university.

ONLINE REGISTRATION

To apply, prospective students can visit the program's dedicated page at study.singidunum.ac.rs/foundation-program. Here, applicants will find detailed information about the program structure and eligibility requirements. The online application form allows students to provide their personal information, educational background, and a motivation statement explaining their interest in the program.

Once the application is submitted, students receive a confirmation email with instructions on the next steps, as well as important dates for orientation and course schedules. With the Bridge Program, Singidunum University offers a supportive path for international students to begin their academic journey in Serbia confidently and well-prepared.
